

Engagement Guide

Networking Event at a General Meeting: This event provides your company with a valuable opportunity to build brand visibility and connect with high-potential students in a casual, student-led setting. Hosted during one of our regularly scheduled general meetings, it allows your team to introduce your organization, share internship or full-time opportunities, and engage in informal networking with BAXA members. With attendees from diverse academic backgrounds in business, analytics, computer science, and economics, this event offers an efficient, low-pressure way to engage with top emerging talent.

Mock Interviewer (October): Held in early October, this signature event gives company representatives the opportunity to conduct one-on-one mock interviews with BAXA members. It provides students with valuable exposure to real-world interview scenarios, while giving your team the chance to offer personalized feedback, share recruiting insights, and engage directly with high-potential candidates in a low-pressure setting.

Escape McCombs: Escape McCombs is the only coding-based escape room competition at UT Austin, combining technical problem-solving with immersive, team-based challenges. Companies can support this one-of-a-kind event through a variety of impactful sponsorship opportunities. Sponsors can enhance their presence by branding a challenge round with real-world problems, staffing a "Hint Desk" to engage directly with participants, or providing swag, prizes, or tech gear for top competitors. Additionally, companies may host a pre-event workshop focused on coding, analytics, or professional development, and gain access to resumes from top-performing participants or a curated resume book.

Case Competition: Held in collaboration with three other student organizations, this spring-semester event brings together top talent from across disciplines to tackle a real-world business challenge. Taking place on a Saturday, the competition offers sponsors the opportunity to serve as judges, network with participants, and gain visibility as event co-hosts. Companies can also support the event through sponsorship, with brand placement across marketing materials and recognition during the opening and awards ceremonies. This is a high-impact way to connect with driven, solutions-oriented students and observe their problem-solving skills firsthand.

Sponsoring (Monetary): Support BAXA directly by becoming a monetary sponsor of our organization. Your contribution helps fund high-impact events, workshops, competitions, and member development opportunities throughout the year. If you're interested in supporting us, we'd be happy to share our detailed Sponsorship Packet, which outlines the various sponsorship tiers and the benefits associated with each level, including branding, recruitment access, and speaking opportunities.

Office Visit: This event invites BAXA members to your company's office for a guided tour, team meet-and-greet, and a behind-the-scenes look at your work environment. It's an excellent opportunity for students to learn about your culture, roles, and day-to-day operations while giving your team direct access to high-caliber analytics talent. It offers a unique platform to build early relationships with future candidates, strengthen your campus presence, and showcase what makes your organization a standout place to work.
